REQUIREMENT RR/HTA/E/R14/57: Describe changes since World War II in the Feodosiya Railroad Station and Yards, South.

REMARKS:

The Feodosiya Railroad Station and Yards, South, located 58 miles west-southwest of Kerch, serves primarily as a passenger and freight terminal for the Feodosiya area.

Poor image detail on the photography precludes a detailed photo analysis of this installation. However, it appears that the only change since is the construction of three or four warehouses.
